

# 30 Day English Speaking Challenge: Family

---

## Week 3: Travel – Day 20: Interesting

**Question:** What's one of the most interesting things you've ever done while traveling? Tell me about it.

### Vocabulary:

1. Breathtaking surroundings: *a description of exceptionally beautiful scenery*

I never got tired of our **breathtaking surroundings** during our trek through the mountains.

2. Flourish: *to grow or develop in a healthy or vigorous way or to become very accomplished in a skill; pronounced "fler-ish"*

After Grace started working regularly with a tutor, her writing skills began to **flourish**.

### Vanessa's answer:

I know I've mentioned this before, but one of the most interesting things I've ever done while traveling happened after Dan and I spent a few years in Korea. We moved to France for a couple months and worked on some organic farms. Yes, there were **breathtaking surroundings**, that was wonderful, but also we learned so many interesting things about how to help organic vegetables grow, some of the difficulties, some of the wonderful parts of it. And then when we moved back to the US, we tried those things in our own garden and tried to see if we could get our garden to **flourish** as well.
